School should also be Fun

You can help us
with just
one euro.

Can you still remember your school days?

What school parties have you celebrated?

Were there nice certificates at competitions?

Did you have great AGs after school?

Hello,

we are the support association of the primary school at Pulvermühle. Unfortunately, all the things mentioned above are no longer possible without the support of parents and sponsors.

For this reason, we founded the support association in 2003 and have only been able to continue to exist today thanks to the active support of many people. Our association is made up of parents, teachers and pupils of the school, who all work on a voluntary basis.

Our goals

- to make children's learning easier, more enjoyable and more memorable
- to support the school financially
- Making school a bigger part of everyday life again

Which projects do we support?

The association supports many projects financially or through the commitment of our members at festivals and events. Here are a few examples:

- Catering for the children at the national youth games
- „Welcoming the new first-graders and their parents with a delicious cake buffet“
- Supplies for the AGs of the classes
- Certificates and prizes for school competitions
- Purchase of technical school supplies and various literature
- Social and integration support
- Biscuit and cake sales

How can you help with all these things?

Quite simply. Join the association and help our children.

With just €1 per month (€12 per year) minimum contribution many projects can already be realised. Of course, we are always happy to receive additional donations for our good cause.

On the back you can find out how to become a member of. The pupils would be delighted...
